

# when the sound's this good, it's easy to share

It's easy to turn your iPod® into a powerful, high quality audio system for large rooms or that far-flung barbecue or beach event!

Take a shiny ultra-compact design in three sizes and colours. Make it easy to use. Add miraculous processing and create **Geneva**: a unique one-box stereo audio system for iPod, CD and Radio with the sound of a giant hi-fi but at a fraction of the size and cost.

Audio Pro's innovative **Porto** is a durable, leather-clad, uniquely equipped and genuinely portable music system custom-designed for iPod. Unlike only mains-powered systems, Porto can travel literally anywhere and always sounds amazing. Complete with FM RDS tuner. Available in black or red leather.
